TRAILBLAZERS' DAY CAMP

An ideal introduction to camp life at Captain's Pond, Salem and Atkinson, N.H. Three alternate days per week. Boys 5-12 and girls 5-11. Excellent swimming instruction and many other activities. Individual attention from mature, understanding counselors. Conference with director at end of month. Booklet, John W. Page, Dodge's Row, Wenham, Mass.

The school committee decided at Tuesday night's special meeting to have conversational French taught in all elementary schools beginning next September and elected a teacher for the Shaw-shen school who will give the course there and at the West school.

For the Bradlee school the committee will have Miss Beverly A. Bloomberg, one of the present teachers at Ballardvale, teach the subject there beginning with the next term, and is hopeful that the teacher who will have to be elected for the sixth grade at the Central school before next term, will be able to teach the course at Central.

The subject will be taught next year in the fourth grades so that pupils in other schools will be abreast of the third graders now at the Central school who are taking the course this year.

Miss Bloomberg attended the Choate Preparatory school and got her A. B. degree at Smith where she majored in elementary teaching. She has also studied French and has taught some conversational French in her classes this year.

All members were present at the meeting and the committee interviewed two candidates for the teacher-coach position vacated by Edward Doherty, and one candidate for superintendent to succeed Supt. Kenneth L. Sherman.

On motion of Mr. Doherty seconded by Mrs. Partridge it was voted that the maximum salary which may be paid to a superintendent of

QUESTION: How does an insurance company settle a claim for a damaged tire? Do they replace it with a new one?

ANSWER: The Company adjuster and the insured usually work it out on a mutually satisfactory basis. For instance if a tire had cost \$25.00 new and had 80% of its wear left, the adjuster would allow \$20.00 and if it had run half of the miles expected of it he would allow \$12.50 and so forth.

Cutting Expenses

Quite naturally, most of us think of the tax problem primarily in connection with the federal government. Washington, D.C. collects most of our tax money today. And Washington, D.C. has been the center from which most of the revelations of waste, incompetence and graft have come. On the brighter side, the hopes of millions of people are pinned on the new federal administration's pledged efforts to wring the water out of government financing, to balance the budget, and to eventually reduce taxes.

But the taxpayers will make a serious mistake if they focus their attention on the federal establishment to the exclusion of all else. State and local governments are big tax collectors too.

In Massachusetts, taxpayers know all too well that the state budget has grown by leaps and bounds over the past decade. In Andover the cost of running the town has increased more than two-fold over the same period. In March, 1943, the town meeting appropriated the sum of \$646,594 to cover town expenses for the ensuing year while in March, 1953, the town meeting appropriated a total of \$1,509,976 for the same reason.

However, the attempts now being made in Washington and in Boston to reduce government expenses is one that will bring cheer to most taxpayers.

Don't hide your town's name and accomplishments from passing motorists; use them to build a community "personality" that will catch the eye of industrialists and tourists. In Dumas, Tex., signs on the outskirts say "Straight ahead to Dumas, home of 7000 nice people and a few old soreheads." — Pathfinder.

The American people have a great tendency to come together in groups, to form organizations with membership based on similarity of occupations or interest. And sometimes these groups become so absorbed with their own problems, with furthering their own ends, that they forget they are, above all, members of their country first. — Fitchburg (Mass.) Sentinel.

Down the Years with The Townsman

50 Years Ago — April 1903

Readers of The Townsman will learn with regret that H. S. Stillings, who has for the past four years been so closely linked with town life as reporter for these columns, has taken a position of advertising man with the Lawrence Telegram. His place will be taken by William C. Bliss, son of the postmaster.

Employees of the Smith & Dove Co., in the rooms affected by the breaking of a huge pulley last Friday, were very fortunate in being able to return to work again Tuesday morning.

The new bell for the South church was shipped from Troy, N.Y., last Monday.

A class in raphia and reed work has been formed among the teachers in the public schools.

A splendid new sign, "Superintendent of Schools" in gilt letters has been erected over the side entrance to the town house so that hereafter there will be no difficulty in finding the rooms of the superintendent.

John Ryley, clerk in McLawlin's hardware store, will begin his duties next Monday for the Lawrence Sun-American. He had been the local correspondent for these papers for some time.

The Andover team played the Punchard nine a practice game last Saturday. With the score 5 to 3 in favor of Andover the game was called at the end of the second inning because of snow.

There would be less vandalism and petty crime here if parents would keep their children at home nights. Gangs of boys from 8 to 15 roam through the town ready for "harmless" fun, which often leads to mischief. The remedy is with the parents, we say.

The state department has sent veterinarians to take a census of all the cattle in town.

25 Years Ago — April 1928

Sec. Herbert Hoover leads in presidential primary here. On Republican ballot he had 440 votes, Coolidge 34, Charles D. Dawes 11, Alvan T. Fuller and Alfred E. Smith 5 each; Frank O. Lowden 2. On Democratic ticket Smith had 44 and Fuller 1. About 15% of town's electorate went to the polls.

Over 400 attend hearing in town hall regarding Lawrence-Andover phone service. Majority voted to abolish toll charge. Another referendum will be taken to give all subscribers an opportunity to state whether they prefer the present flat rate for Andover with a toll charge or an increased rate to include Lawrence service.

Patrolman George A. Dane selected to take state police training course for police officers from all over the state.

Special plate has been made by Wedgewood Potteries of Staffordshire, England, in recognition of Abbot academy's 100th anniversary.

METHUEN 6, PUNCHARD 3

Punchard suffered its second defeat in this young baseball season when it travelled to Methuen last Friday and dropped a 6 to 3 decision before the masterly two-hit pitching of sophomore Henry Wainwright.

The big right-hander was wild enough, however, to give the Blue Devils numerous scoring chances by passing 14 batters but the necessary hit to drive runs across was not forthcoming, Punchard leaving 14 stranded on the bases. The locals did not get a hit until Dick Lawrence opened the eighth with a double. Wainwright also struck out 12.

Punchard used three pitchers, Bob Grudzinski, Jim Adams and Tom Pearl.

Punchard 13, Wilmington 5

Punchard scored its first win of the season with a 13 to 5 victory at Wilmington in a Suburban league contest Wednesday, Apr. 22.

Due to darkness the game was called in the first of the eighth and the score reverted to the seventh innings.

A double play was the feature of a rather loosely played game. It came in the sixth when Dolan caught a fly deep in center field and on a relay, Wennik to Doyle at second base, a Wilmington base runner was doubled up.

The score:

Kitchen Komment

Trying to train your children in good table manners? More can be done with an attractive table setting than with nagging words! Spread a fresh, gaily colored cotton tablecloth and matching napkins. If the kids spill things at first, it's no tragedy, as such table linens can be sudsed easily enough. A pretty tablecloth shows you trust the children and appeals to their festive feeling, and encourages an extra effort at good manners.

You can get a quick-setting hair-do this way: Twist a cotton dab around the center of a pipe cleaner, leaving enough wire on each end to bend over and hold the hair tightly. Apply wave set to your hair and roll! Dries quickly and curls tightly.

Avoid mop shaking by slipping a cotton flannel top on your mop, and washing it in hot soapsuds after use. Mop "slipovers" are sold in pairs so you'll always have one clean and ready to use.

Waffle toast is delicious to serve with creamed chicken, peas, or salmon. To make waffle toast, remove crusts from slices of bread; margarine the slices lightly on both sides and toast in a waffle iron.

JUST SO

THE wealthy contractor liked to know all about the employees who toiled in his vast business. One day he came upon a new young man who was dexterously counting out a large wad of the firm's cash into pay envelopes.

"Where did you get your financial training, young man?" he asked.

"Yale," the young man answered. Mr. Biggs was a staunch advocate of higher learning. "Good," he said, "and what's your name?" "Yackson."

Is your dog an obedient, well man-
nered companion? Does he come when
called? Sit and stay upon command?
Walk quietly at your side? Or does
he jump on your friends, chase auto-
mobiles and generally misbehave? We
can train him correctly.

Dogs accepted for training from 6
months to 8 years of age. Private les-
sons by the hour. Group classes, al-
ways forming. Today an untrained
dog is an "illiterate," while the
schooled dog is acceptable everywhere
—a joy to take anywhere.

SCHOOL BOARD DECIDES TO CONTINUE FRENCH

(Continued from Page One)

schools be established at \$8500. No minimum was set. The salary paid Supt. Sherman was \$7800.

On motion of Mr. Doherty seconded by Mr. Kimball it was voted to elect Lionel Goulet, presently a teaching principal in an elementary school in Skowhegan, Me., a teacher at a salary of \$3200 as of September 1.

Mr. Goulet, formerly of Lawrence, is a graduate of St. Anne's school, Lawrence High, and received his A.B. at Colby college. At Colby he minored in French and played varsity baseball. He also played varsity baseball and football at Lawrence High. He received his B.S. in education at Lowell Teachers' college with credits toward his master's degree.

Mr. Goulet will replace Miss Florence McCarthy in the fourth grade at the Shawsheen school, the latter having received a year's leave of absence to teach abroad. At the Shawsheen he will teach conversational French for 20 minutes daily and will also give the course at the West school for the same time.

A part time teacher at the Shawsheen school who assists the principal will take Mr. Goulet's classes while he is at the West school.

With the election of Mr. Goulet, the plans to have Miss Bloomberg give the course in Ballardvale, and the expectation that the new sixth grade teacher who will have to be added to the Central school will be able to teach French also, the committee believes that it has settled the French issue with no additional cost to the town.

MOBILGAS ECONOMY RUN FLASH!

FORD BEATS ALL IN ECONOMY!

MILEAGE MAKER "6" WINS SWEEPSTAKES!

Score a blazing victory for Ford's dollar-saving gas economy! Ford's high-compression Mileage Maker "6" with Overdrive beat every car entered in this year's Mobilgas Economy Run, regardless of size or weight, to sweep the sweepstakes! Ford's winning average was 56.70 ton-miles per gallon.* And Ford's high-compression 110-h.p. Strato-Star V-8 with Overdrive was right up there in economy, too, with a record of 48.55 ton-miles per gallon!

The winning Ford was a regular production car, just like thousands of other '53 Fords you see on the road every day. This 1,206-mile trip from Los Angeles to Sun Valley covered all types of driving conditions. The route threaded through city traffic, where stop-and-go driving tests an engine's fuel economy under the toughest conditions . . . and out along the highways of four western states.

The Ford Mileage Maker "6" took all this in stride, maintaining a speed above the required 44.25 m.p.h. minimum, to finish 1st in the sweepstakes! What better proof is there that Ford is the thriftiest car of all? What better way to show why Ford is worth more when you buy it . . . worth more when you sell it!

TON-MILES PER GALLON*

Ford is the first car in its weight class . . . in the history of the Economy Run . . . to win top honors in ton-miles per gallon over all other cars regardless of size or weight.

*The AAA Contest Board determines the winner by a "ton-mile per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons of gasoline consumed.
